# GENERAL NURSING AND MIDWIFERY (GNM)

GNM is also known as GNM nursing. This nursing specialization centers on training nursing aspirants on general medical care and midwifery courses.

As scholars expand their knowledge and understanding of general medical care while pursuing the GNM programs. As per their interest and expertise they can move on to more particularized healthcare fields like childcare, pharmacology, orthopedics, pediatrics, nutrition, intensive care units, emergency nursing, midwifery, and a wide range of other healthcare areas.

GNM's have bright career opportunities to work in several healthcare contexts in both government-owned and private hospitals. They can operate in healthcare centers, hospices, nursing homes, the armed forces, health care facilities, community centers, and as an instructor in college, etc.

**10+2 ANY STREAM + WBJEE**
